Need a customized piece
of furniture?

INEDIT

Do-it-together with an online community!
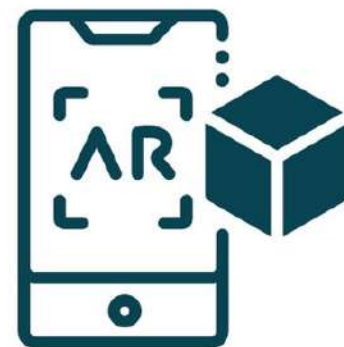

DesignTogether
IDEA. DESIGN. ENJOY.

1

Join the platform

To imagine your furniture,
co-design it and produce it
locally, join the Design
together platform

2

Scan your room

To get the dimension of
your place, use the
ScanView App.

3

Imagine your furniture

Create what you imagine with
Creative and Immersive
Design Tool. It is possible to
smartify it.

Get feedbacks

Improve your product with feedback from experts and the makers community.

4

5

Try it out

If you have doubts, make prototypes.

6

Order it

Building it through a EU network of **registered manufacturers**, taking care of environmental manufacturing impacts.

7

Produce locally

Local manufacturers, specialized in wood and plastic 3D printing and smartification, will produce your custom furniture.
